

## TSW Removers

### TSW9 PLASTI-MASTER

- Works on delicate surfaces
- For removal of paint
- Use on vehicles, plastics, glass, aluminum, and many other hard-finished surfaces
- Zero VOC formula

### TSW2R MULTI-MASTER

- Works on most surfaces
- For removal of oil and latex paints, permanent marker, inks, shoe polish and more
- Use on metal, wood and painted surfaces

### TSW3G MASON-MASTER

- Works on porous surfaces
- For removal of paint
- Use on brick, concrete, stone and most unpainted masonry

All TSW removers are available in the following sizes: 8oz. sampler pack, 24oz. spray bottle, 1 gallon and 5 gallon quantities.

## TSW Coatings

### TSW4 ACRYLI-MASTER

(CLEAR SEMI-GLOSS FINISH)

### TSW8 ACRYLI-MASTER

(CLEAR LOW SHEEN FINISH)

- Water-based acrylic coatings
- Non-sacrificial for long-lasting graffiti protection
- Used by muralists and property owners
- Specified by architects worldwide
- Use on most painted and unpainted surfaces
- Dries clear, will not discolor outdoors
- Surfaces coated with Acryli-Master can be repainted
- Offers UV protection
- Sold in Test Kit, 1/2 gal, 1 gallon, and 5 gallon
- 130-150 sq. ft. complete coverage per gallon
- 5 year limited warranty

### APPLICATION

- Always call 800-447-2334 before applying
- Cross-linked formula
- Airless sprayer recommended for larger jobs
- Use brush or short nap roller for smaller jobs
- Use TSW2R to remove graffiti from coating

## TSW Cleaners

### TSW5 SPRAY CLEAN

Internal flush for spray equipment, cleans wet or dried paint from brushes and rollers.

### HDPE SPRAY BOTTLE

Chemical and solvent-resistant for decanting.

## TSW pH Tests

### pH PENCIL TEST KIT

Test surface pH levels from 0-13. Includes pH pencil, pH color chart, distilled water spray bottle and case.

### TSW6 pH QUICK TEST

Use spray and surface will turn color if pH level is over 10. Includes test solution spray and acidic neutralizing agent.

## Why Choose TSW

*TSW products have been an industry leader since 1994. Our products are used to help beautify communities for removing graffiti vandalism. Used daily by cities, schools property managers, painters, community volunteers, business and homeowners.*

## TSW Removers

Our substrate specific removers are free of NMP and MeCL.

## TSW Coatings

May be applied to most surfaces; painted and unpainted. Available in a semi-gloss or low-sheen finish.

## TSW Cleaners and pH Test Kits

Spray Clean is a spray rig, brush and tool cleaner, developed to break apart and dissolve acrylics.

Our pH tests are a simple and quick way to test surface pH on stucco and natural masonry prior to painting.
